REPORT OF HEALTH OFFICER

In conformity with the usual custom, I submit my report as Health Officer for the year ending January 31, 1943.

The following contagious diseases were reported to me during the year.

1 Gonorrhea	1 Syphilis
2 Scarlet Fever	4 Pneumonia

Several cases of Whooping Cough, Mumps, and Measles.

One of the above cases failed to report to the Doctor as the law requires and it was necessary for me to take action, which I did.

I also had some trouble with the Barber Shop owners. They were told to either conduct their shops according to law or be closed.

I collected samples of milk from the Fremont Dairy and Fred P. Dearborn, Jr., and sent same to the State Laboratory of Hygiene for analysis. Report, no criticisms.

Several samples of the Epping Town Water were also sent to the Laboratory, with the follow-

ing report: Good except iron continues moderately excessive.

In conclusion, I again request all who are interested in the health and welfare of our Town to cooperate with me in the discharge of my duties as your Health Officer.

Respectfully,
 GEORGE H. GILMORE,
 Health Officer.
